When an organization needs support to modernize applications, implement processes, or manage a major transition, Cooper Consulting's teams of highly qualified professionals are ready to help. Our experience and references have qualified us for key contract vehicles with the state of Texas.

Approved by the Department of Information Resources (DIR), the Information Technology Staff Augmentation Contract (ITSAC) provides temporary IT staff augmentation services to agencies at rates that can be found in [Appendix C ITSAC Not-to-Exceed Rates](#) (PDF).

Cooper Consulting provides qualified staff resources [listed in Appendix D of our contract showing all ITSAC categories](#) (PDF) including:

- Project Managers
- Business Analysts
- System Analysts
- Developers
- Enterprise Architects
- Network Engineers
- Quality Engineers and Testers
- And more!

Cooper Consulting has an extensive database of technical staff for your project needs. We are platform agnostic - supporting Java, .NET, open source, UNIX, Linux, Windows, and all major database platforms. Our consultants are certified in various leading edge technologies and methodologies.

To support you, we place only highly skilled, senior professionals who are accustomed to hitting the ground running and providing excellent results in very short time frames.

View our current ITSAC contract, contract number [DIR-CPO-5462](#). A list of subcontractors can be found on the HUB Subcontracting Plan (HSP) given on our DIR contract page.

Warranty and Return Policy - Cooper Consulting Company abides by and is committed to the Warranty terms set by DIR for this contract. Our customers have thirty (30) calendar days from the date of signature on our invoices to inform us of their determination that our consultant has made errors in completed work. Cooper will make corrections and revisions as necessary to provide our customer with an acceptable work product without additional cost to the customer. Correction is limited to rework of the unsatisfactory work without change to the original specifications and without regard to the amount of the effort expended on the original work.

To find out more about utilizing ITSAC services under our contract number DIR-CPO-5462, see more information on DIR's [ITSAC Contracts page here](#). Purchase Orders must always reference our DIR contract number, DIR-CPO-5462. Remember that you can go directly to a trusted vendor to obtain specific skill sets by using the Best Value Justification!
